SHRI VYANKATESH ARTS, COMMERCE AND SCIENCE COLLEGE,**Deulgaon Raja Dist. Buldana (M.S.)****DEPARTMENT OF MICROBIOLOGY****Report On****"EDUCATIONAL TOUR TO LONAR CRATOR"****For B.Sc.Third Year Students****(Date: 03 Feb.2020)****SUMMARY ABOUT EDUCATIONAL TOUR: LONAR CRATOR: (03 FEB.2020)**

The department of Microbiology planned to organize a study tour at Lonar Crator Dist. Buldana (M.S.) because Lonar Crator has importance as a microbiological point of view on 03 Feb. 2020. Lonar Lake appears green for most of the year due to the presence of dense blooms of cyanobacteria such as *Arthrospira* spp., bacteria and archaea belonging to diverse functional groups such as methanogens, methanotrophs, phototrophs, denitrifiers, sulfur oxidizers, sulfate reducers, heterotrophs and syntrophs have been reported. Diverse alveolates, fungi, stramenopiles, choanoflagellates, amoebozoans and cercozoans, and many novel lineages of putative micro-eukaryotes were detected in molecular surveys of Lonar Lake sediments.

The aim of the tour was to observe living wild life fauna as well as aquatic fauna & their movement present in Lonar Crator. 44 students accompanied by Prof. P.B.Pawar, Dr.A.S.Jadhav, Prof. D.M. Shimbre, Dr.M.R.Tandale & Dr.R.L.Telgad. The tour team left at 7.00 A.M. Sharp from the college campus & proceeded towards Lonar. The team had their lunch at the site of Kamalja Devi Temple. At crator, the students observed the microbial flora and sampled the water, sediment and algal mats.

Despite the hectic schedule the students enjoyed a lot they had very good time observing the live specimen, enquiring their unresolved queries about the Lonar Crator microflora & various wild fauna & aquatic fauna. The team reached at 6.00 PM on the same day at the college campus. Educational Tour to Lonar Crator was successfully organized with the support of staffs and students of dept. of Microbiology, S.V.College, Deulgaon Raja. 12. Internal Assessment Brief Report :**2018-19**

Shri Vyankatesh Arts, Commerce and Science College, Deulgaon Raja, Dist- Buldhana

An abstract regarding Evaluation under the Department of Commerce – 2018-19

The teaching and learning process starts from 1st of July of every session. At the beginning of the session every teacher prepares his academic plan in his academic diary as per the academic calendar prepared by the college with the help of the university academic calendar, In this academic diary plan is also made for evaluation of the student. After completing each lesson the notes are dictated in the class and students are asked to prepare the notes and the tests are held in every month. At least five tests are conducted during the year. Along with these tests, to make the students bold on the stage seminars are also organized. All students are appealed to participate in the activity. Maximum students deliver their seminars on topics taught in the class. These seminars are conducted at the end of every session.

From this session the university introduced semester system to B. A. and B. Com. Beginning with the first year. The college conducted the examination and assessed the papers at the college level. There is 80-20 pattern introduced for these classes. Twenty marks are for internal assessment. Besides, the group discussion is a part of evaluation in the viva-voce is for twenty marks. Hence to make the students able in group discussion, two group discussion are held at the end of every session. Maximum students take part in this activity, They don't speak satisfactorily but at least they understand the format of this activity which would definitely be useful for them in future. In this group discussion individual performance is observed and they are given marks individually. But it eases their burden at the time of annual viva-voce. They at least express themselves though in a few words before the external examiner.

The quiz completions are organized on the topics taught in the class at the end of every session. Four teams are generally the participants in this activity. Students like this activity most as they perform it in group and it also creates a kind of competition among them as the teams of boys and girls are separately formed. In this method evaluation is done of the group. A winner groups is given prize and certificates are given to the participants of the winner group. The teachers maintain files of all these activities undertaken during the year. The file is checked by the principal as well as by IQAC. Besides these evaluation methods there are first term and second term examinations for the students at the end of each session. The failure students are warned and advised to study hard. They are provided study material or notes. The truants' students' parents are consulted telephonically or by post. Personal visits are also paid to such students as the town is small and every now then we come across their parents. In this way the evaluation of the students is made throughout the year. Besides these activities the interactive session and projects and home assignment are also the activities which helps us for effective teaching and learning process.

An Abstract regarding evaluation under the department of chemistry 2019-20

The teaching and learning process starts from 1st July of every session. At the beginning of session every teachers prepare his academic plan in his academic dairy as per the academic calendar prepared by college with the help of university academic calendar. In this academic dairy plan is also made for evaluation of student by conducting unit test, seminar, group discussion, quiz competition. The purpose of classroom assessment and evaluation is to give students the opportunity to show what they have learned rather than catching them out or to show what they have not learned. After completion of topic a unit test is conducted on that topic and the answer sheets are discussed with the student to clear the problems they have occurred in unit test. At least five tests are conducted during a year.

Along with the tests student seminars on their subject topics are also organized. By taking seminars in front of their teachers and friends, the students will be able to talk before a crowd later in their life without any difficulty. Also they can learn their mistakes and can improve their seminar presentation skills. This would help them to get more information on the particular seminar topic. Seminars also help them to convey their own ideas to their friends and teachers. Making students take seminars on the subject topics would always help them more to understand the subject. This would give them a chance to collect more information about the seminar topic they are provided with. The result is that they would learn the subject well, because they have to acquire knowledge about the subject of their own.

The group discussion is also organized for students on their subject topics. Group discussion on study topics plays a vital role in understanding the topics. Discussing a topic with friends or classmates helps them in learning the topic with perfection. Group discussion on a topic involves sharing of learning by the participants which equally benefits all the participants. Group discussion involves exchange of ideas where important things are learnt from each other. Group discussion helps them to develop self confidence in students. Students have appear viva- voice in practical exam. Participating in group discussion helps students to improve their speaking skill and make them talk confidently in viva voice. In this group discussion individual performance is observed and they are given marks.

Quiz competition are organized on the subject topics in each semester. Students actively participated in such competition, because it is a fun and effective way to attain maximum knowledge. These competitions motivate and engage students to give their best. It also builds confidence in children from the rural areas and makes them aware of what they can achieve through such competitions. Three to four teams are participants in competition. Evaluation of student is done by their group getting highest mark declared as winner. Students need to form teams while participating in quizzes, giving them an opportunity to hone their teamwork skills. The failure students are warned and advised to study hard. They are provided with study material and notes.

The teachers maintain file of all these activity under taken during the year. The file is checked by principal as well as by IQAC. In this way the evaluation of the students is made throughout year. Besides these activities the interactive session, projects and home assignments are also the activities which help us for effective teaching and learning process.
