Policy Document for Environment and Energy

The goal of Shri Vyankatesh Arts, Commerce and Science College Deulgaon Raja's environment and energy usage policy is to manage energy in a methodical manner in order to reduce its environmental impact. The college's Environment Consciousness & Sustainability Committee is committed to raising environmental consciousness, implementing eco-friendly projects, and running eco-friendly literacy campaigns in order to reduce energy use and save the environment.

Vision

All of the institution's constituent parts must abide by this environment and energy policy, which also covers all of its stakeholders and the range of activities the institution engages in. It will assist us in realizing our obligations and committing to the protection and responsible use of natural resources by assisting us in integrating efficiency and environmental consciousness into our daily operations. In order to lighten the load on the government and identify alternative alternatives for resolving the energy problem, the strategy suggests exploring renewable energy sources.

Objective

- To Sensitize all parties involved to the importance of a clean, green, and sustainable environment.
- To aware students and faculty members recognize that it is everyone's duty to take personal action to protect the environment.
- To embrace environmental best practices and reduce any negative environmental consequences in collaboration with all stakeholders and the local community.
- To consistently increase the effectiveness with which all resources including energy and water are used, as well as to lower consumption and the quantity of waste generated, recovering and recycling trash wherever feasible.
- To guarantee the prudent use of environmental resources in order to fulfil the goals and requirements of both the current and upcoming generations.
- Use of recycled water should rise. Encourage the use of sustainable water solutions. to enable practical uses of the campus's rainwater. To guarantee environmental protection by using efficient waste management practices.

Policy

Awareness: Students, Faculty members and support staff should all be made aware of the need to conserve the environment and work toward sustainable growth.

Eco-education: All academic, extracurricular, and curricular activities and programs of the College will incorporate environmental studies that center on environmental themes and issues.

Green Initiatives: The college will implement sustainable practices and green initiatives for a clean and green campus as part of its efforts to preserve and safeguard nature's resources for future generations. We will support initiatives that foster a sense of obligation for protecting the environment.

Outreach Programs: The college will launch campaigns, hold workshops, and hold awareness drives on relevant environmental issues as part of its extension operations to reach out to the community.

Energy conservation: Energy-consuming devices should be replaced with energy-efficient devices or LED lighting. When there is enough natural light in classrooms and hallways, all Students and faculty members and supporting staff involved must refrain from using electric lights.

Renewable Energy: The college will soon begin using renewable energy in the future year by installing solar power panels to supplement its energy needs. This will help to secure energy security and preserve the nation's natural resources.

Waste Management: Vermicomposting will be continued as a solid waste management method for organic matter.

Water management: Rainwater harvesting systems, borewell recharge systems, trenches, ponds, and bunds will be used to replenish groundwater. Appropriate maintenance of the water distribution system will also be carried out.

Pollution Management: Measures will be implemented to minimize carbon dioxide emissions from motor vehicles in an effort to reduce pollution. The appropriate actions for a tobacco- and smoke-free campus shall be taken by the authorities. The pertinent signs are up to emphasize how important it is to have a clean, green, and sustainable environment.

Environmental, Energy and Green Audits: an analysis and assessment of the environmental impact will be carried out through energy, green, and environment audits. The analysis will be used to improve the campus's environmental conditions and put energy-saving measures into place.

The students and employees will receive information about this policy through internal communication channels, and the institutional website. The Environment and Energy Policy, along with its objectives and targets, will undergo regular reviews by the Environment Consciousness & Sustainability Committee under the guidance of the principal of the college.

POLICY DOCUMENT FOR DISABLED-FRIENDLY, BARRIER FREE ENVIRONMENT

National policy of the Government of India formulated for persons with disabilities in February 2006 which deals with educational reintegration of persons with disabilities, therefore in view of this Shri Vyankatesh Mahavidyalay, Deulgaon Raja has implemented these policies in the teaching and learning process.

The emphasis of the policy is on the following:

1. The use of signage of male and female symbols, in accordance with local customs and Standards, with raised outlines and bright colour contrast will be more evident to everyone and particularly helpful for persons with visual impairments
2. To ensure the accessible, gender-sensitive, safe, usable and functional washroom facilities should be provided for disabled persons.
3. To ensure that the design of the building such as ramp, lift should be according to the Disabled persons.
4. Provision for enquiry and information: Human assistance, reader, scribe, soft copies of Reading material, screen reading,
5. To ensure the proper text and pictogram signage such as tactile path, lights, display boards, signposts are necessary, located to be visible and touchable.
6. Learners with disabilities need to be adequately and appropriately supported in and 'out of the Classroom with the right resources and assistive technology, and with leadership, teaching staff and college communities that are responsive to their needs.
7. To ensure the accessibility of software tools and technology for the people with disabilities.

7.1.2: The Institution has facilities and initiatives for

1. Alternate sources of energy and energy conservation measures

1. Solar energy :-

Solar Lights in the Campus

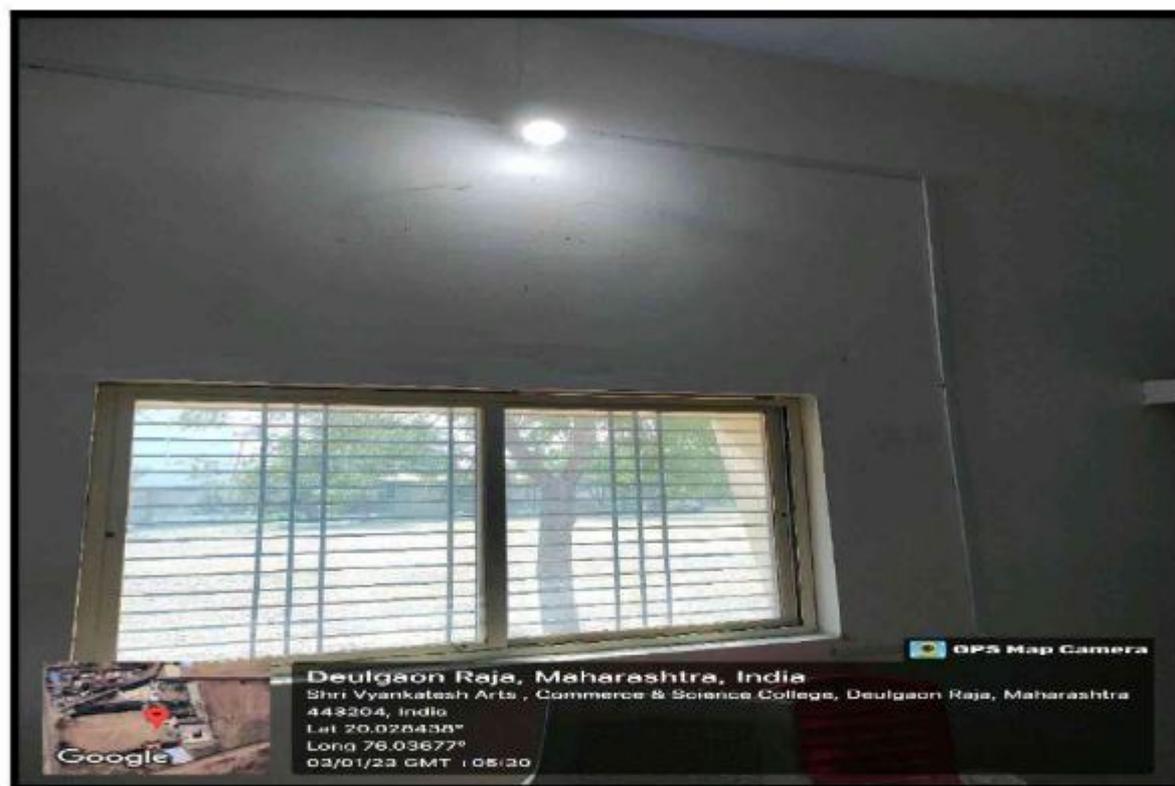

Solar Lights in the Campus

Use of LED bulbs/ power efficient equipment

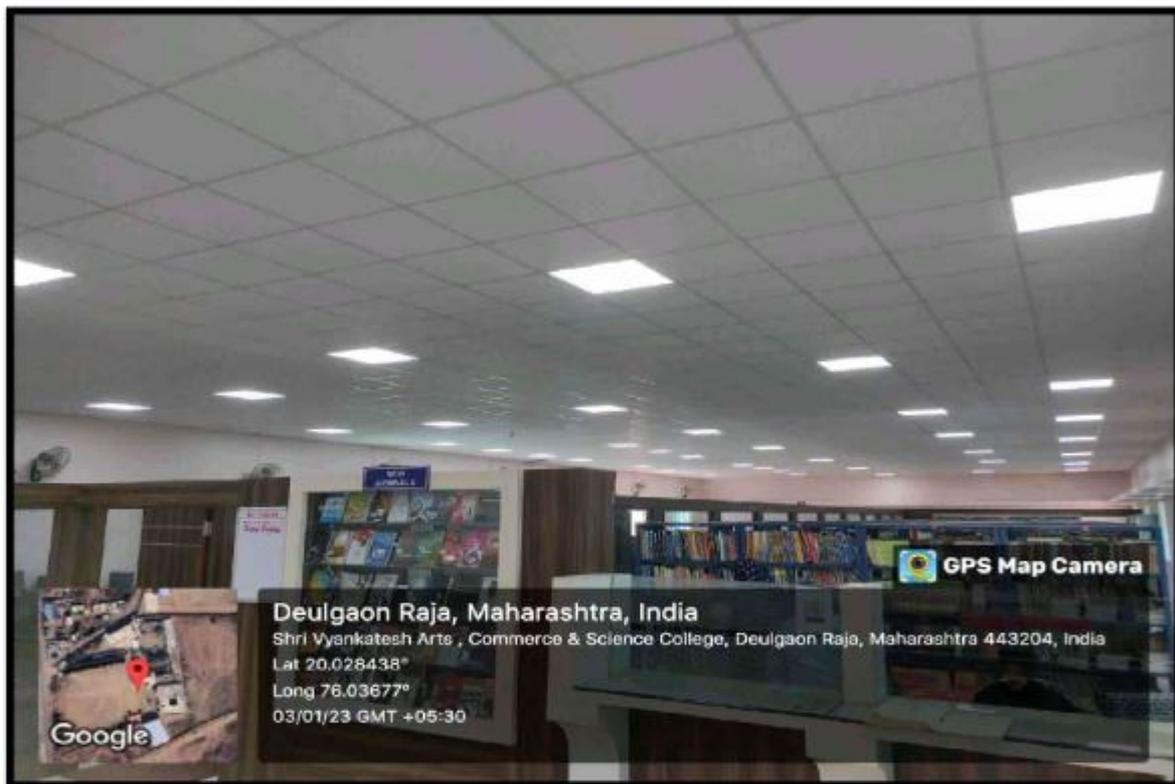

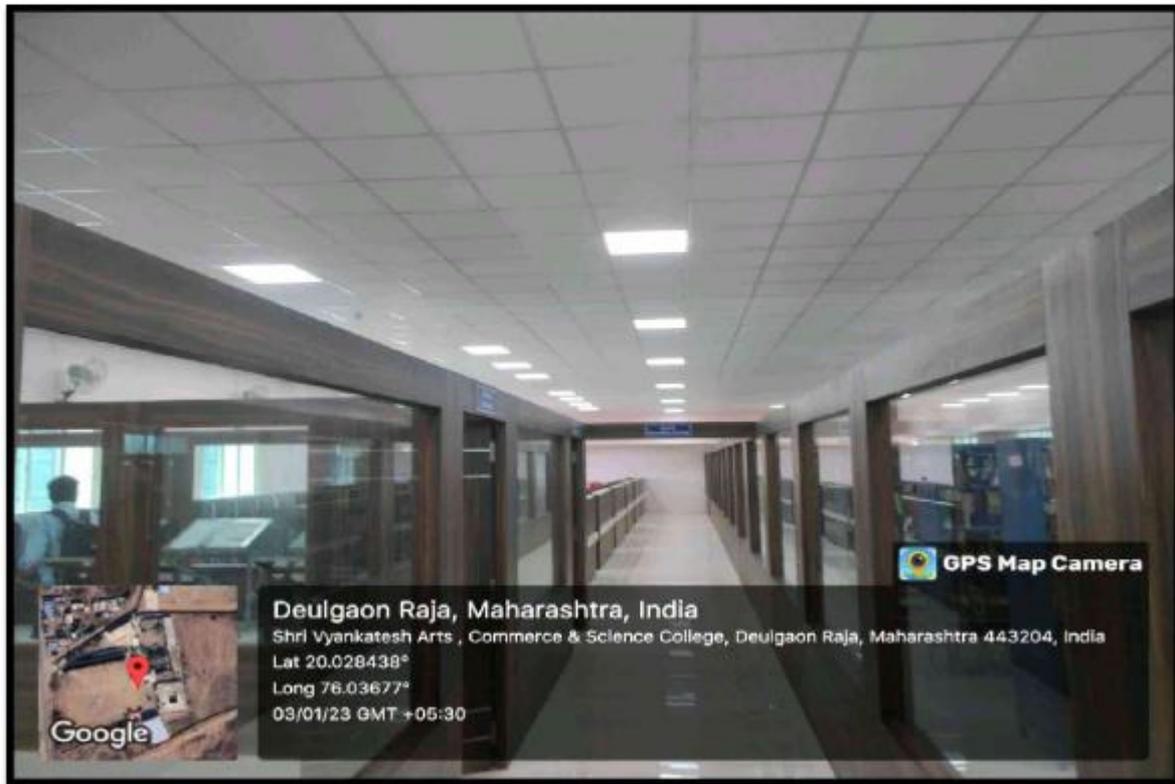

Use of LED bulbs/ power efficient equipment

Use of LED Tube Lights and LED Bulbs

Use of LED Lights

2. Management of the various types of degradable and non-degradable waste

1. Solid Waste Management-

Our college is very conscious and committed to the environmental issues with regard to protection, conservation and sustenance of natural resources.

A) Compost

Wet waste generated at campus is collected in a pit of size is 15×10×4 feet. This waste is subjected for windrow composting. It is the production of compost by piling organic matter or biodegradable waste. This pit is mixed periodically to improve the porosity, oxygen content, remove moisture and redistribute cold and hot portions of pile. From this we get dry manure which is utilized for the gardening the campus and various premises of the Institutions. The solid waste generated by the Microbiology Department which contains highly dangerous pathogens is disposed following bio safety norms as it is first sterilized by autoclaving and then disposed.

B) Vermicompost :- Our campus has well established vermicompost project where the organic debris are converted into worm castings that play important role in increasing the fertility of soil.

2. Liquid Waste Management-For the liquid waste management the waste is taken out with help of the pipeline to the ditch dug behind the college. Adequate care is taken to stop the spread of mosquitos and other insects by sprinkling the insecticides on the water. The liquid in the form of rainwater is also taken to the tank behind the college with the help of the pipeline of 6 inch near the open well. Water, collected from campus is taken to this tank and it resulted in the growth of the water level of the well.

3. Waste water recycling

We do not waste water from the RO water filter. The wastewater from the RO Water Filter in our college has been irrigated to the plants without going to waste. So the plants get life without wasting water.

4. E Waste Management- We don't have more e waste in our college, but whatever e waste is collected we sell it as a scrap.

Report of Environment Consciousness & Sustainability Committee

During the session 2018–2023, the following activities were undertaken with the active participation of the students.

- 1) The Environment Consciousness & Sustainability Committee created the plant nursery in the college campus.
- 2) The Environment Consciousness & Sustainability Committee organised the inauguration ceremony of the plant nursery of the college for free sapling distribution to students, various offices, and people in Deulgaon Raja on 02/08/2018.
- 3) The Environment Consciousness & Sustainability Committee organised the inauguration ceremony of the plant nursery of the college for free sapling distribution to students, various offices, and people in Deulgaon Raja on 07/09/2022
- 4) The Environment Consciousness & Sustainability Committee distributes saplings to students, various offices, and people in Deulgaon Raja by the college every year
- 5) Bird feeders were hung at various places on campus on March 20 (World Sparrow Day) every year by the Environment Consciousness & Sustainability Committee.

- 6) The Environment Consciousness & Sustainability Committee organised the Rangoli Competition on the occasion of “Vasundhara Day” on 14th Jan 2019.
- 7) The Environment Consciousness & Sustainability Committee organised a Plastic-Free Awareness Rally. Students distributed pamphlets to people about household waste management.
- 8) Immersion chariot was prepared by the college for Lord Shri Ganesha Visarjan, wherein Shri Ganesh Idols from Deulgaon Raja were collected and duly immersed in the municipal well on 09/09/2022
- 9) Seed balls prepared by the college students on 31/05/2022
- 10) The Environment Consciousness & Sustainability Committee organised an Ecofriendly Colour Making Workshop on 17/03/2022
- 11) The Environmental Conservation Committee celebrated World Water Day every year. Students and staff members took an oath to conserve water on the occasion of World Water Day on 22nd March
- 12) The Environment Consciousness & Sustainability Committee organised an online guest lecture on the occasion of World Water Day on 21/03/2022.
- 13) The Environment Consciousness & Sustainability Committee celebrated World Environment Day. Students and Staff Members took an oath on the occasion of on 5th June 2022.
- 14) The Environment Consciousness & Sustainability Committee organised Cycling Awareness Programme
- 15) The Environmental Conservation Committee organised a workshop on Biodiversity & Environmental Conservation.
- 16) The Environment Consciousness & Sustainability Committee organized Tree Plantation Programme in the college, Deulgaon Raja Town and villeges.

- 17) The Environment Consciousness & Sustainability Committee celebrated World Ozone Day.
- 18) Vrukshadindi and Tree Plantation Programme jointly organised by Tehsil office, Panchayat Samiti, Social Forestry Department, and Shri Vyankatesh College, Deulgaon Raja on 30/07/2022.
- 19) The Environment Consciousness & Sustainability Committee organized Botanical Tour for Algal collection on 24th November 2022.
- 20) The Environment Consciousness & Sustainability Committee organized workshop on Health hazards of Artificial Colours on 6th March 2023
- 21) Presentations Prepared by the students on the occasion of Holi to spread message to use natural colours on 6th March 2023.
- 22) The proposal was prepared for "Paryavaran Puraskar" for SGBA University and got the award.
- 23) The proposal was prepared for "Chhatrapati Shivaji Maharaj Vanashri Puraskar" for the Department of Social Forestry, Maharashtra, and got the award in 29 July 2019.
- 24) The college got Green & Clean College Award -2023 by Dnyanjyoti Bahuuddeshiya Sanstha to our College.
